

July 5, 2021

In the past few years FMMHA has been focused on earning our right to grow. We have done this through the dedication and hard work of our volunteer Executive Board and are excited about the continued improvement of our 4 core programs: Junior Oil Barons Elite, Female Huskies, WBHL, Inclusion Royals.

FMMHA believes that hockey provides much more than just the act of playing the sport itself and the skills kids learn early during their minor hockey journey will be similar to skills they will learn in becoming great people. FMMHA is committed to delivering programs that emphasize the value of having fun, working hard and teamwork to support long lasting friendships.

In the last 5 years we have grown our elite program to include the U11 Development team and the U13, U15, U18 'A' teams. We have seen huge success in building not only our hockey development, but our brand in the community by being responsible with our financial directives, community givebacks and proving ourselves as the premier host for all of our travel leagues.

FMMHA is proud to be invited and will be participating in a Hockey Alberta pilot program that will introduce U11 to AA hockey. If this pilot is successful, we will be looking to grow the elite program by introducing a U11 A team in the 2022-2023 season.

***To prepare for this growth, the FMMHA WBHL program is introducing a new U11 Development team that will participate and play in our U13 Level B program.*** Players who do not make the U11 Jr Oil Barons team and would like this development opportunity will be assigned to the WBHL U11 development team. This team will follow the U13 division schedule and all WBHL directives but with the exception that they will be allowed to travel up to 5 tournaments a season.

More details to come on this exciting step in the continuing growth of our organization.
