

Coach Mentor Update - Shaun Fagan

- Assisted Minor Hockey Coach with strategies to handle conflict he was having with players' behavior on his team - successful. The coach appreciated the feedback and help. I attended one of his practices to help with organization and flow of practice plan
- Full days at the rink during the Oil Sands Classic helping coaches motivate the little ones and watching. I assisted on a bench for a game as they only had one coach.
- Worked on-ice with U7 Mustangs. Helped beginner coach Coach Ross Carruthers run a practice plan
- Newsletter (interviewing coaches and players, creating newsletter)
- Follow up with coaches who participated in my coach clinic at the beginning of the year
- Present at many practices - have noticed some coaches have taken my feedback and have implemented it with their teams (on ice drills and on ice management/organization of the kids)
